

Assignment (05/03/2026)

Assignment Name: Component Hunt

Description: Break a popular website into components and sketch the structure.

Selected Website: YouTube

Identified Components

Component	Description
Header / Navbar	Contains the logo, search bar, and user profile icon.
Sidebar	Navigation menu with options like Home, Shorts, and Subscriptions.
Main Content Area	Displays video thumbnails, titles, and channel information.
Video Card	Each video preview showing thumbnail, title, views, and channel name.
Footer	Contains additional links and information at the bottom of the page.

Basic Layout Structure (Sketch Representation)

Logo	Search Bar	Profile
Sidebar	Video Grid / Content Area	
	More Videos	
Footer		

Conclusion

The YouTube website can be divided into multiple reusable components such as header, sidebar, video cards, and footer. Breaking a website into components helps developers design and maintain web applications more efficiently.
